01 INTRO TO THE WORLD FOOD FORUM

What is the World Food Forum?

Launched in 2021, the World Food Forum (WFF) is an independent, youth-led global network of partners facilitated and hosted by the Food and Agriculture Organization of the United Nations (FAO). It aims to spark a global movement that empowers young people everywhere to actively shape agrifood systems to help achieve the Sustainable Development Goals (SDGs) and a better food future for all. The WFF serves as the premier global forum to harness the passion and power of youth to identify solutions and incite positive action for agrifood systems.

What is the World Food Forum flagship event?

The World Food Forum (WFF) flagship event is a dynamic global platform that transcends boundaries, generations and sectors to transform the future of our agrifood systems. On 16–20 October 2023, both at the Headquarters of the Food and Agriculture Organization of the UN (FAO) in Rome, Italy, and on our interactive virtual platform, the 2023 event will bring together world experts, impassioned changemakers and visionary leaders of all ages around the theme: “Agrifood systems transformation accelerates climate action”.

Organized into three interlinked fora - the WFF Global Youth Forum, the FAO Science and Innovation Forum and the FAO Hand-in-Hand Investment Forum - the 2023 flagship event will leverage the power of intergenerational collaboration and creativity across policy, science, innovation, education, culture and investment. The goal is to forge new paths of action, impact and acceleration on the local, regional and global levels towards a sustainable, resilient, inclusive and hunger-free food future for all.

Be empowered to co-create a future where food security and environmental sustainability are a universal reality. Whether you are looking to learn about this year’s theme, share your knowledge and ideas with others, recognize and celebrate groundbreaking solutions, or collaborate and forge powerful networks, this global forum is an inclusive invitation to all people of all generations and backgrounds to become driving forces behind the change the world urgently needs.

Registration gives you access to:

- Thought-provoking discussions, dialogues and debates;
- Trailblazing roundtables and policy discussions with stakeholders and policymakers;
- Eye opening insights from global visionaries, leading experts and local changemakers;
• Collaborative workshops on emerging trends and technologies, practical skills and best practices;
• Interactive demonstrations and exhibitions;
• Cutting-edge research and innovative solutions;
• Empowering tools to make tangible impacts in your communities and beyond.

In short, you will walk away from the WFF flagship event prepared with the knowledge, solutions, connections and inspiration to take action in your community, scale up your impact, and expedite agrifood systems transformation and climate action.

Join us to embark on a transformative journey that will shape the world we inherit and revolutionize the way we nourish ourselves and our planet for generations to come.

You will find the full agenda for the flagship event in the end of this guide!
The Global Youth Forum

The Global Youth Forum brings young people together in a safe and inclusive space to discuss, advocate and co-identify priorities and solutions on the way forward to catalyze the transformation of agrifood systems. Under the 2023 theme “Agrifood systems transformation accelerates climate action”, the Global Youth Forum aims to:

• Find solutions for food security and strengthened agrifood resilience;

• Highlight the connections between the transformation of agrifood systems and global climate solutions; and

• Co-identify and share bold, actionable strategies to minimize and mitigate climate change impacts for our and future generations.

The Youth Forum will do this through (i) a global youth assembly for food policy, (ii) an innovation lab for young entrepreneurs and scientists, (iii) a food education symposium and school assembly, and (iv) motivational and cultural outreach and engagement activities. It will include youth from all spheres of society and all corners of the world, including marginalized youth such as Indigenous Youth and young farmers from least developed countries.

Youth Policy

The WFF Youth Policy track connects and empowers young people around the globe with different backgrounds to discuss their local priorities and challenges, and identify innovative and actionable solutions for a better food future.

YOUTH ASSEMBLY

The Youth Assembly provides a dedicated, self-organized and institutional space for youth in agrifood systems advocacy and action founded on inclusivity, diversity and respect of all persons.

In 2022, the Youth Assembly produced the Youth Action Regional Compendium, which is a synthesis of regional youth policy priorities that were identified through the analysis and summary of youth statements and manifestos. It sets the working areas and topics per region, representing youth perspectives on the top policy areas that need to be addressed.

The Youth Assembly is organized and led by the WFF’s Youth Policy Board, who are responsible for identifying and drafting the policy recommendations of the WFF, providing strategic direction to the activities carried out.

The Youth Assembly is not affiliated nor aligned with any political group or organization.

The Youth Assembly is an inclusive space that does not discriminate, and everyone is welcome to participate, whether as part of a delegation,
an organization or as an individual. National governments of FAO Member States have been requested to form a delegation to partake in the Assembly.

Before taking part in the Youth Assembly, it will be helpful to familiarize yourself with the previous policy discussions by reading the Youth Action Regional Compendium. This Compendium is an outcome of the 2022 Youth Assembly and contains a collection of priority working areas synthesized from youth calls to action worldwide, highlighting both requests to national and local governments and the commitments of youth and youth groups.

As a global network of partners promoting agrifood systems transformation, the WFF youth delegations will engage with actors across all sectors, experiencing multicultural activities, intergenerational dialogue and generating multilateral impact.

All delegates and participating individuals should be enthusiastic, respectful and ready to meaningfully engage with all parties present at the discussion. As an inclusive space, the Youth Action Assembly welcomes all people and encourages diversity in all its forms, including political, intellectual, sectoral, cultural, religious, socio-economic, gender and geographic.

Innovation Lab
The goal of the WFF Innovation Lab is to bolster innovation for sustainable development in support of ending hunger and accelerating climate action. Led by global youth, it engages the leaders of tomorrow, showcases the innovators and innovative solutions that are already making a difference, and aims to inspire the world to confront the threats that our agrifood systems face today.

HERE ARE THE TOP ACTIVITIES NOT TO MISS:
The Transformative Research Challenge (TRC), the Youth Food Lab (YFL) and the Startup Innovation Awards, powered by Extreme Tech Challenge (SIA) are initiatives from the Innovation Lab that happen throughout the year, with the flagship event representing the end of the participants’ journeys.

The TRC is a global competition that aims to engage university students and young researchers to propose and implement actionable solutions that will have a high impact in accelerating the transformation of our agrifood systems;

The SIA is a global startup competition aiming to showcase innovators and entrepreneurs who are harnessing the power of technology to drive the sustainable transformation of agrifood systems;

And the YFL is a platform for teams of young innovators, researchers and entrepreneurs to transfer their idea-stage solutions into a real business model.

At the flagship event, the participants of these three
initiatives will showcase their research, innovations and solutions – don’t miss out!

Check out the Innovation Lab webpage to learn more about each initiative and hear from participants about their innovative solutions.

**Education**

The WFF Education track provides access to knowledge, ideas and actions for agrifood systems transformation. It aims to inspire young people to take action and it provides resources for teachers and educators to deliver materials related to local agrifood issues. The WFF’s educational programs and activities also incorporate behavioral science tactics in order to increase the likelihood of achieving positive behavioral change in people of all ages.

**SCHOOL ASSEMBLY**

The Education Track and the Youth and United Nations Global Alliance (YUNGA) will host the annual School Assembly on Thursday, 19 October, at the FAO Headquarters in Rome, Italy and virtual. The School Assembly will bring together youth from around the world to learn and share knowledge on how food action accelerates climate action through interactive activities, special guests and jaw-dropping artistic performances.

**YUNGA LAB ON BEHAVIOURAL SCIENCE**

These fun and interactive educational sessions for kids and young people focus on a range of environmental and social topics such as energy, biodiversity, plastic pollution, climate change and nutrition. The main purpose of the labs is to engage, encourage and empower youth to adopt and promote sustainable behaviors. The labs also increase awareness of programs run by YUNGA partners and other organizations so that classes, schools and youth groups can develop initiatives in their schools, groups, families and communities.

**DISCOVERY STATIONS**

Following the School Assembly, students are invited to participate in fun and interactive educational stations throughout FAO HQ, which will focus on a range of environmental and social topics such as energy, biodiversity, plastic pollution, climate change and nutrition. The Discovery Stations will engage, encourage and empower youth to adopt and promote sustainable behaviors, using activities adapted from the YUNGA Challenge Badge series.

**YOUTH SKILLS HUB**

During the WFF 2023 flagship event, we will launch the first-ever WFF Youth Skill Hub (YSH), an innovative online platform dedicated to equipping youth with essential knowledge, skills and confidence to actively shape agrifood systems for the betterment of human and planetary health.

**Local Action**

The Local Action track empowers local youth to initiate and sustain solution building in their communities, inform policymaking in their countries and build
lasting transformation in their local agrifood systems. Through WFF National Chapters, which are convened by a local network of partners in collaboration with the FAO Country Offices, local youth self-organize to create national youth platforms to mobilize youth led action for sustainable agrifood systems in their communities, cities and countries.

REGIONAL FORUM EVENTS
At the flagship event, look out for Regional Forum Events! Organized in collaboration with FAO Regional, Liaison and Country Offices and streamed around the clock, Regional Forum Events bring best practices and experiences from the regional and local level to feed into the global deliberations happening at the WFF flagship event. Do not miss out on the launch of WFF National Chapters too!

Culture
What do film, art, music, cooking and other cultural events have to do with the growing climate crisis and our strained agrifood systems? These cultural threads sew the fabric of a connected world that transcends all boundaries, including languages and physical borders.

The WFF Culture track utilizes gastronomy, film, art and music as a catalyst to connect youth around the globe through our shared passions in order to spark discussion and action around ongoing issues to help transform agrifood systems.

WFF CONCERT
The WFF flagship event will feature a line-up of young and talented musicians from all over the world performing throughout the week, all connected to climate and agrifood systems. The main concert will take place on the first day of the flagship event. Stay tuned for this year’s WFF anthem!

THE THIRD ANNUAL WFF FILM FESTIVAL
At the Film Festival, the winners of our Short Film Competition will be announced in addition to fascinating short panels from international players in media, film, TV and more. The projects will shed light on how film can trigger a positive impact in the areas of food security, nutrition, gastronomy and more to facilitate agrifood systems transformation. You will have a chance to watch the winning films throughout the week.

EXHIBITIONS & CULTURAL EVENTS
The WFF flagship event will communicate and raise awareness of the growing climate crisis and our strained agrifood systems through art exhibitions, gastronomy events and even a bioeconomy fashion show.

Our experiences also go beyond FAO’s Headquarters to the beautiful botanical gardens of Rome, where we will host an art exhibition on mushrooms (both live and painted) for the entire month of October, open to the public. Learn more about the artist, Egeon, here.
FAO Hand-In-Hand Investment Forum

The FAO Hand-in-Hand Investment Forum aims to mobilize public and private sector investments in selected priority areas, identified using sound criteria and methods, to eliminate rural poverty and hunger. The Forum is designed to enhance and foster an inclusive dialogue among governments, private sector and development partners to produce concrete results and improve the lives of rural poor.

It emphasizes the essential role of the private sector at national and international levels, as well as International Financial Institutions, in ensuring a successful in-country outcome of the Hand-in-Hand Initiative. It also serves to build momentum around actions that governments, businesses and the international community can take to accelerate and implement the 2030 Agenda, bridging the gap between the country’s need for public/private investment in deprived rural areas to scale up production, trade, and value chains and the private investor’s appetite for opportunities and diversified returns.

During the WFF flagship event, the Forum will host presentations of around 30 countries of the FAO Hand-in-Hand Initiative, as potential investment, and intervention opportunities, providing evaluation by representatives of the Multilateral Development Banks, national and global agrifood private sector entities, institutional investors, national development banks and donors, among other stakeholders and development partners.

MORE INFORMATION ON THE HAND-IN-HAND INVESTMENT FORUM

> Head to their website here
FAO Science and Innovation Forum

Highlighting the centrality of science, technology and innovation for agrifood systems transformation, the FAO Science and Innovation Forum supports FAO Members to accelerate efforts towards achieving the SDGs and the FAO “four betters”, leaving no one behind. It utilizes roundtables, panel discussions and various interactive formats to bring together a diverse set of perspectives based on science, thereby facilitating rationalization and inclusiveness of debate.

This year’s theme will be “Science and Innovation for Climate Action”, aligned with the WFF 2023 theme. The Forum will focus on enhancing the accessibility of the most appropriate climate technologies, innovative practices and local knowledge in agrifood systems for climate change adaptation, resilience and mitigation through the following objectives:

- Explore advancements in climate science and technology and their associated risks and opportunities;
- Share evidence-based solutions for creating more efficient, inclusive, resilient, and sustainable agrifood systems;
- Analyze ways to enhance science-based decision-making and provide guidance to countries in making informed choices about adopting suitable technologies and innovations in their specific contexts;
- Emphasize the significance of effective science communication, even on contentious topics;
- Promote focused and strategic debate on how science, technology and innovation affect vulnerability, impact and capacities, and are essential to transform agrifood systems and boost climate action.

The Forum will provide major stakeholders, in particular from low and middle-income countries (LMICs), the space and opportunity to take stock of the science and evidence base and gaps while engaging in dialogues and sharing experiences around science-based actions and innovative solutions. It will be preceded by independently organized side events, with partners showcasing their innovations and insights.
2nd Session of the Biennial UN Global Indigenous Youth Forum

Providing a space of dialogue among Indigenous Youth from across the seven socio-cultural regions, FAO Members, UN specialized agencies, academia, research centers and other stakeholders, the 2nd Session of the Biennial UN Global Indigenous Youth Forum (GIYC) will also take place between the 16 and 20 of October, in parallel to the WFF flagship event. The Sámi people from Norway are supporting the GIYC and FAO by providing the Boaššu FoodLab, a nomadic tent, to host the Indigenous Youth Forum. Last year, this same tent was declared an Indigenous Peoples’ territory on the premises of FAO. Within the Boaššu FoodLab, Indigenous Youth, chefs, representatives, experts and artists will unite to promote Indigenous Peoples’ food and knowledge systems.

Hosted by FAO and organized by the Global Indigenous Youth Caucus and the Association of World Reindeer Herders it’s main objectives are:

• Discuss policies affecting the future of Indigenous Peoples’ food and knowledge systems in the context of climate and biodiversity action;

• Advance the recommendations stated by the 2021 Indigenous Youth Global Declaration on Sustainable and Resilient Food Systems;

• Continue building on the Policy recommendations developed through “My Food Vision is...” Indigenous Youth Campaign launched in October 2022;

• Build a line of work with the leadership of the Coalition on Indigenous Peoples’ Food Systems to advance the objectives of the Coalition and campaign;

• Hold dedicated discussions with the FAO Investment Forum, the FAO Science & Innovation Forum, the World Food Forum and the Committee on World Food Security.
World Food Day
CEREMONY, 10.00-11.00, 16 OCTOBER, PLENARY HALL
This year, #WorldFoodDay with the theme, “Water is life, water is food. Leave no one behind” spotlights how water is essential to life on Earth and the foundation of our food. As rapid population growth, urbanization, economic development, and climate change put the planet’s water resources under increasing stress, the campaign will look at solutions and call for action to produce more food and other agricultural products with less water, while ensuring water is distributed equally, our aquatic food systems are protected, and nobody is left behind. Read more in the brochure.

We’ll be kick-starting the flagship events at FAO headquarters with the annual ceremony at 10.00 on 16 October. The President of the Italian Republic Sergio Mattarella, the President of Ireland Michael D. Higgins and the Minister for Climate Change and Environment of the United Arab Emirates Mariam Bint Mohammed Saeed Hareb Almheiri will be joined by the Heads of the Rome-based UN agencies with special messages from Pope Francis and the UN Secretary-General, António Guterres as well as the presentation of the FAO Achievement Award.

Join the water experience!
A special interactive water experience will take place during World Food Week. Refresh your ideas about water and explore the window display showcasing water action solutions and food heroes. Head to the Atrium to discover water action through the eyes of a child with our interactive games and make a splash on social media with our live photo mosaic wall. Complete your visit with an immersive water experience that promises to awaken your senses, allowing you to gain a greater understanding of the vital role water plays in life and food.

Junior World Food Day
19 OCTOBER, 14.30-16.00, PLENARY HALL
Junior World Food Day is back for a third edition.

Write to us if you want to come in person. If you can’t make it, register to watch it online.

Join us for a journey of inspiration filled with stories, music, art, the launch of the new music video, guaranteed to inspire water action for food. Special guests include Chefs Binta, Anahita Dhondy, Bela Gil, Rodrigo Pacheco (also FAO Goodwill Ambassador) and Max Mariola; athlete and UNDP Regional Goodwill Ambassador Michael Haddad; young activist Olivia Mandle, gardener and FAO Goodwill Ambassador Diarmuid Gavin and sustainable fashion activist Matteo Ward.

The event will also feature a live performance by the multicultural Piccola Orchestra di Tor Pignattara and friends. Get ready for some dancing and see the full programme here!

01.1

FLAGSHIP EVENT: Practical information

In-person participation

ARRIVING AT FLAGSHIP VENUE
The WFF flagship event will take place at the Headquarters of the Food and Agriculture Organization of the United Nations.

The FAO Headquarters is located in the city center of Rome, near the metro station Circo Massimo and close to the Colosseum. It is a white building that is easy to recognize. Ostiense is the closest train station (15-20 min walking)

Virtual participation

For virtual participants, learn how to use the platform to attend the event here.
Collecting your badge

All participants need to collect their badges in order to attend the flagship event. Kindly note that badges are only prepared for pre-registered delegates. Badges cannot be issued on the week of the flagship. To collect yours, you will have to present your passport or ID card at the Visitors Reception Pavilion, at the entrance of the FAO headquarters. Considering that this process may take you some time, you are encouraged to arrive at the building at least 30 to 60 minutes ahead of the scheduled time of the session you wish to attend.

You can also pick up your badge at the FAO headquarters during the weekend before the flagship, starting 14 October, from 08.00 to 17.00 CEST. We recommend you pick up your badge over the weekend to avoid long queues during the week.

As you can see in the indicated area in the picture below, the security booth is located at the main entrance of the FAO building. Follow the signs “visitor” either at the Viale Aventino or Piazza di Porta Capena.

Access to the FAO building is only available with the WFF badge, please make sure to always carry it with you!
Food at FAO

Within the FAO building there are three coffee shops, a cafeteria and a restaurant. These facilities only accept Euro currency, and you may pay in cash, credit or debit card, including contactless cards.

POLISH BAR
OPEN 7:30-17:00 CEST
Coffee shop located on the ground floor of Building A. serves coffee, tea, drinks, cakes and sandwiches all day, with international food from different cuisines during lunch time.

UZBEKISTAN LOUNGE
OPEN 8:00-17:00 CEST
Coffee shop located on the 8th floor of Building C. They serve an expanded selection of sandwiches, salads, pastries, yogurts, ice creams, fruit and beverages.

FOUNTAIN BAR
OPEN 8:00-15:00 CEST
Coffee stand located on the 8th floor, Building B. Offers an assortment of coffee, teas, pastries, sandwiches, yogurts and beverages.

EDEN BAR
OPEN 7:30-17:00 CEST
Building D ground floor. Serves an assortment of sandwiches, pizza, fresh salads, hot and cold main dishes for lunch, beverages, yogurts, ice creams, fruits and coffee.

FOOD COURT
OPEN 12:00-14:30 CEST
Self-service option offering a variety of organic and international food choices located on the 8th floor of Building B – access through the lift next to the flag room. They serve entrees, pasta, grilled meat or cheese, salads, desserts and drinks.

RESTAURANT BUFFET
OPEN 12:00-14:30 CEST
Located on the 8th floor of Building C. They offer an open buffet food choice.

Throughout the building you will find vending machines for coffee, tea and soft drinks. You will also find drinking water fountains – **bring a reusable bottle!**

**ESTIMATED PRICES:**

- **Coffee** – around 1.00 Euro
- **Sandwiches** – from 1.50 to 4.00 Euros
- **Cold and hot meals** – from 3.00 to 7.00 Euros
- **Restaurant Buffet** – 12.00 Euros for all you can eat
Rome has two international airports: Leonardo da Vinci Airport (at Fiumicino) - FCO, which is used by major airlines, and Ciampino Airport - CIA. Although both are located outside the city center, there are easy connection lines which you can take.

FROM THE FCO AIRPORT TRAIN STATION TO THE FAO BUILDING BY TRAIN
The Leonardo Express is a non-stop train which costs 14.00 Euros and takes 30 minutes from Fiumicino airport to Termini Station. From Termini Station, take the Metro Line B (direction Laurentina) for three stops and get off at Circo Massimo. You will see FAO right across the street.

Regional (Trenitalia) Services: From Fiumicino airport you can also take a train to Roma Ostiense Station (any of the following final destinations work: Roma Tiburtina, Fara Sabina, Poggio Mirteto or Orte). These trains stop at every station and cost 8.00 Euros. You will reach Roma Ostiense Station after a ride of approximately 28 minutes. Roma Ostiense Station is connected to the Piramide stop of Metro Line B. Take the Metro in the Rebibbia direction for one stop and get off at Circo Massimo (you will see the FAO building to your right as you come up the steps).

FROM FCO AIRPORT TO THE FAO BUILDING BY TAXI
A taxi from Fiumicino Airport to FAO or any other area within the historical Aurelian Walls should cost around 50.00 Euros (fixed rate for Taxis registered with the Municipality of Rome). NB: tariffs are 60.00 Euros if you take a taxi from the Municipality of Fiumicino).

Upon arriving at Fiumicino Airport, make sure to follow the instructions at the arrival gates to reach the train station. Fiumicino is bigger and usually busier than Ciampino, but the train station is located right across the street, connected with a skybridge from the arrivals area.

FROM CIA AIRPORT TO THE FAO BUILDING
You can take a shuttle bus from the Airport or ride Metro line A from Anagna to reach the Central Station (Termini). From there, take the Metro Line B (direction Laurentina) for three stops to Circo Massimo.

Tip: Anyone offering taxi services from inside the terminal is doing so illegally, and they may also charge higher prices. Make sure your taxi has a meter and insist on the metered fare rather than an arranged price (except for the fixed fare taxi from FCO to Rome).
Transportation in Rome

Roma Termini is Rome’s biggest train station, and one of Europe’s largest as well. Termini is not only the main railway station but the major transport interchange for Rome. Trastevere and Ostiense stations are secondary stations.

To reach the FAO headquarters from Termini, you can take Metro line B in the direction of Laurentina, and get off at Circo Massimo Station. The FAO building is located right outside the station.

The metro runs approximately every 7-10 minutes from 5:30 am until 11:30 CEST from Sunday to Thursday, and until 01:30 CEST in the morning on Fridays and Saturdays.

Please be aware that the Metro A line is under construction and the metro works from Sunday to Thursday until 21:00 CEST. After that, there is a substitute bus doing the same route during the regular functioning hours mentioned above.

This might change in case of occasional technical issues, therefore we advise you to constantly use the Google Maps or Moovit apps to keep up with the working hours of public transport. Usually when metro lines stop, substitute buses are made available, however they work at a much slower pace and we would not recommend relying on them. Make sure to keep an eye on the metro hours! In Rome, you can purchase different types of transport tickets and travel cards depending on the number of days of your stay in the city and on how often you plan on using public transportation.

WHERE TO BUY TRAVEL CARDS AND TICKETS?
Public transportation tickets in Rome can be bought in vending machines in any metro station, convenience stores or newsagents. You may also use the tap & go service: you just need a contactless credit, debit or prepaid card. Access to the metro lines is possible also with digital cards on NFC-enabled devices (smartphones, smartwatches etc.). Find all the latest information here.

• One-way ticket (BIT) € 1.50: The BIT ticket lasts 100 minutes since its first validation and allows for unlimited transfers between the metro, buses, trams and urban trains within stations. The ticket is no longer valid once you leave the station, even if it’s in the 100 minutes of validity.

• MULTIBIT - 10 single ride tickets from €3.00 to €15.00: Valid for 2, 5 or 10 trips of 100 minutes each from its first validation, for a single journey on a metro/train urban route. Once the first 100 minutes have run out, the ticket can be reactivated for an additional 100 minutes by validating it once again, and so on up to 10 reactivations.

• Metrebus 24 hours - €7.00: This ticket allows unlimited public transportation from
the moment the ticket is validated until midnight of the same day.

- **Metrebus 48 hours €12.50:** The 48-hour ticket allows unlimited use of Rome’s public transport for 48 hours from the time it is first used.

- **Metrebus 72 hours €18.00:** It allows unlimited use of public transport for 72 hours from the time it is first used for the first time.

- **Weekly pass (CIS) €24.00:** If you’re going to spend a week in Rome and you plan to use public transport a lot, the ideal option for you is the weekly pass, as you’ll be able to use unlimited public transport for 7 days. Note: The same type of tickets can be used for metro, bus and tram, and sometimes train.

### Weather in Rome

The weather during this time of the year is changeable and you may find yourself not only in need of different outfits on different days but also reaching out for an extra layer at certain times of the day. Fall is a transition season in Rome and temperatures are usually in the mid-20s C and rain is possible.

Essentials will be:

- **Good walking shoes** – opt for waterproof shoes that can take the occasional shower of rain and bring two pairs, should you get caught in one of Rome’s torrential downpours!
- **A midseason jacket** – A light jacket and/or a waterproof jacket.

You usually do not need sandals or thermal layers in Rome in the autumn. Short sleeves, jeans or long trousers, a cardigan and a light jacket are usually all you need.

### OTHER USEFUL INFORMATION

Be aware that the voltage of electricity in Italy and the rest of Europe is 220 volts.

INDIGENOUS PEOPLES
EVENTS / WFF AGENDA 2023

18 Oct / DAY 03

YT22: Chef Olivier Chaput & Simon Fraser University: Transforming School Meals
13:00-14:20 Nomad Indigenous Foodlab

YT23: Mountain Youth Hub: Elevating Indigenous Youth Voices
13:00-14:20 Nomad Indigenous Foodlab

YT24: No-Honey Bar
Activities
13:00-14:20 Nomad Indigenous Foodlab

YT25: Opening prayer/Circle: Central Asia/Russia/Transcaucasia
14:30-14:45 Nomad Indigenous Foodlab

YT26: Coalition on Indigenous Peoples’ Food Systems
15:00-16:15 Nomad Indigenous Foodlab

YT27: Global Biodiversity Framework & CBD
16:45-17:45 Nomad Indigenous Foodlab

YT28: Chef Steph Baryluk & Simon Fraser University: Cooking in Two Worlds
18:15-19:15 Nomad Indigenous Foodlab

YT29: African Indigenous Peoples’ Food Systems, International Year of Millet with Chef Mokgadi & Chef Bintah
19:30-21:30 Nomad Indigenous Foodlab

19 Oct / DAY 04

YT30: Opening prayer/Circle: Latin America & the Caribbean
08:45-09:00 Nomad Indigenous Foodlab

YT31: Indigenous Youth Climate Action & COP 28
09:00-10:30 Nomad Indigenous Foodlab

YT32: Science & Innovation Forum – Joint session with UNGIYF
11:00-12:50 Nomad Indigenous Foodlab

YT33: Chef Arpon Chakma, Indigenous Peoples’ Food Systems of Asia
13:00-14:20 Nomad Indigenous Foodlab

YT34: University of Leeds-IPON: One Health-Indigenous Youth Responses to Global Threats
13:00-14:20 Nomad Indigenous Foodlab

YT35: No-Honey Bar
Activities
13:00-14:20 Nomad Indigenous Foodlab

YT36: Opening prayer/Circle: Pacific
14:30-14:45 Nomad Indigenous Foodlab

YT37: Rome Group of Friends of Indigenous Peoples
15:00-16:15 Nomad Indigenous Foodlab

YT38: The Open Institute: Translations thru Terminology
18:15-19:15 Nomad Indigenous Foodlab

YT39: – The Open Institute: Translations thru Terminology
18:15-19:15 Nomad Indigenous Foodlab

YT40: – Canada hosting North American Indigenous Peoples’ Food Systems with Chef Marijah Gladstone, Chef Steph Baryluk & Simon Fraser University
19:30-21:30 Nomad Indigenous Foodlab

20 Oct / DAY 05

YT41: – Opening prayer/Circle: North America
08:45-09:00 Nomad Indigenous Foodlab

YT42: – UNGIYF Declaration & Manifestos
09:00-10:30 Nomad Indigenous Foodlab

YT43: – UNGIYF Press Conference
16:45-17:45 Nomad Indigenous Foodlab

YT44: Nomad Indigenous Foodlab
12:00-13:30 Nomad Indigenous Foodlab

YT45: – UNGIYF Press Conference
16:45-17:45 Nomad Indigenous Foodlab

YT47: – Closing Reception of the UNGIYF & Pre-Opening of the CFS
19:30-21:30 Nomad Indigenous Foodlab
# FAO Hand-in-Hand Investment Forum

</table>
The role of professional associations in strengthening the agricultural extension and advisory services in the context of agricultural innovation systems
09:30-10:00

AgroAdapt: Cultivate the future - A simulation game for anticipatory climate governance and climate-resilient agrifood system transformation
10:00-10:30

Interactive quiz on innovations in collaboration with Bill & Melinda Gates Foundation
12:00-12:30

The New FAO Agroinformatics Platform with Expanded Digital Capabilities (Hand-in-Hand Global Platform)
13:00-13:30

Circular bioeconomy in Abidjan: From Food Waste to Fork - a project of the FAO Incubator
16:00-16:30

Game of Drones: Paw and safe ways for pandemic preparedness
All day (Wed-Fri)

Rural Mobility for Health with Disabling the Mabi Ku D Project
All day (Wed-Fri)

Letas Back Pastoral
12:30-17:00

Showcase of the FAO Incubator project on Circular Bioeconomy in Abidjan: From Food Waste to Fork
All day (Wed-Fri)

Showcase and demo of an agricultural robot from the VINUM project
All day (Wed-Fri)

NGIN photo contest
18:00-19:00

Exploring the future. Horizon scanning and foresight to tackle agrifood challenges
09:30-10:00

Food Safety Foresight and Emerging Issues
10:00-10:30

Accelerating SDG Agrifood for innovators (SEED)
10:30-11:00

A learning framework for inclusive, integrated and innovative public policy cycles for family farming
12:30-13:00

Demonstration/Talk on STI platform
13:00-13:30

Institutional Innovation: Multistakeholder Collaboration Guide
13:30-14:00

Empowering farmers in partnership with researchers: Multi-actor agricultural innovation platforms (MAIP)
14:00-14:30

Circular bioeconomy in Abidjan: From Food Waste to Fork - A simulation game for anticipatory climate governance and climate-resilient agrifood system transformation
15:00-15:30

Digitalization for child labour monitoring along agrifood supply chains. Which is the potential for Blockchain and IoT?
16:00-16:30

Solutions to Improve Water Management under Climate Change
All day

Behavioural Science Corner
All day (Thurs-Fri)

Agriculture 4.0 and new technologies for environmental monitoring systems for monitoring the landscape and air quality in agriculture for the management of agricultural supply chains: the Agroduino system
All day (Thurs-Fri)

Resilience Food Stories
13:30-17:00

Mountain Partnership Products Display
14:00-17:00

*SIF tent: Science and Innovation Forum tent
